EDUCATION

Bachelor of Engineering in Electrical Engineering

Tribhuvan University – IoE Pulchowk Campus, Kathmandu, Nepal | Expected Graduation: 2029

Nursery – Grade 7 Takshashila Academy, Samakhushi, Kathmandu

Grade 8 – Grade 10 (SEE) Meridian International School, Baluwatar, Kathmandu | GPA: 3.45

+2 (NEB) Takshashila Academy, Samakhushi, Kathmandu | GPA: 3.45

SKILLS

Programming: C, Python

Simulation: MATLAB/Simulink

Hardware: Arduino, Sensors, Relay Modules

Languages: Nepali (Native), English (Proficient), Hindi (Conversational)

Soft Skills: Team Leadership, Activity Coordination, Problem-Solving, Communication

PROJECTS & RESEARCH

Fault Detection and Automatic Recovery System | *Ongoing*

- Designing a transmission line fault detection system using Arduino and sensors.
- Integrating GSM module (SIM800L) for real-time fault alerts.
- Working on relay-based automatic isolation and recovery mechanism.

Adaptive DWT-Based Fault Classification for Double-Circuit Transmission Lines | *Research – Ongoing*

- Applying Discrete Wavelet Transform (DWT) for fault classification in transmission lines.
- Investigating the impact of mutual coupling on fault detection accuracy.
- Using MATLAB/Simulink for modeling and validation of results.

VOLUNTEER WORK

IEEE Pulchowk Student Branch | 2026 – Present

Activity Executive Team Member

- Coordinated and organized technical and non-technical activities for the student branch.
- Collaborated with team members to plan events promoting engineering excellence and professional development.

Pulchowk Music Club | 2026 – Present

HR Manager

- Managed human resources and team coordination for the club's activities and events.
- Oversaw recruitment and engagement of club members to foster a creative environment.
